

**Great News – for the second year in a row, Bradford Networks has again received SC Magazine's Best Buy rating and a 5-Star review in its annual NAC Group Test!**

Dear Customer,

Bradford has now received SC Magazine's Best Buy rating in both 2009 and 2010, and was named Innovator of the Year by SC Magazine in both 2007 and 2008. This latest recognition is another great accomplishment for Bradford and further proof that our Network Sentry family continues to lead the pack!

The [2010 NAC Group Test](http://www.scmagazineus.com/access-management-nac/groupstest/225/) was published in the September issue of SC Magazine, and is also available online <http://www.scmagazineus.com/access-management-nac/groupstest/225/>

Products were tested from several vendors including Avenda, Bradford, Enterasys, ForeScout, McAfee, Sophos, and Trustwave. The verdict on Bradford's Network Sentry:

**“A strong performer that integrates with most LAN and security solutions. It has a nice navigation and user interface. We make this one our Best Buy.”**

Watch for more information coming soon, including a PDF version of this great review that you can share with your customers and prospects.

Good Selling!
